

Ø14 X 25 slots

Nett weight	2,1 Kg	Gross weight	X Kg	Scale	1:5
Title		Created by		02/05/2022	
Model 30		T.S.V.			
Bolt connection		Approved by			
		DWG No.			
Date of issue		Rev.			

Specification:

All dimensions in mm.

The anode alloy is according to DNVGL-RP-B-401 and MIL-18001.
Other compositions can be produced upon request.

The center-center distance and the size of the bolt holes can be increased upon request.

Electrochemical capacity: 780 Ah/kg
Potential: -1050 mV vs Ag/AgCl reference in seawater
